

Effective and dynamic presentations

TARGET GROUP	Doctoral Researchers	
TARGET	This training is designed to improve the individual performance in delivering convincing scientific presentations. It combines theoretical understanding with practical application in order to develop your individual presentation skills.	
TOPICS	This training provides information on the basic structure of a presentation such as organization and slide design and focuses mainly on more advanced skills. We practice the art of delivery, communication with the audience and personal connection to the content. In addition, body language, vocal production and eye contact will be taken into account to create each participant's individual and impactful presentation style. Though difficult to teach, these advanced skills put any presentation into the realm of highest quality and memorable success.	
TRAINER	Kathrin Keune, Artsbased Solutions, www.artsbased.com	
VENUE	Tagungsstätte Harnack-Haus der MPG, Ihnestraße 16–20, 14195 Berlin www.harnackhaus-berlin.mpg.de Max-Planck-Institut für Biologie des Alterns, Joseph-Stelzmann-Str. 9 b, 50931 Köln www.age.mpg.de	
FEE	The Administrative Headquarter will cover the fees for the speaker. VA-Nr. 1110: Harnack House charges a delegate rate of 40 Euro per participant and day. This is not included in the costs which are taken over by the Administrative Headquarter and has to be paid by the MPIs.	
NOTES	VA-Nr. 1110: Registration for this seminar starts 01.01.2019! VA-Nr. 1111: Registration for this seminar starts 01.05.2019! Terms and conditions for the participation are included at the end of the brochure.	
MAXIMUM NUMBER OF PEOPLE	12	
REGISTRATION AND CANCELLATION	Angelika Molkenthin	angelika.molkenthin@gv.mpg.de
