

# Making a Lasting Impression in Science through Communication – „Assessment Center“ and „Practice Lab“

TARGET GROUP	Postdocs
TARGET	In this workshop, you are invited to test your own skills and knowledge in experiential processes. The focus lies on performance, delivery and effective messaging of scientific presentations as well as successful communication and self-presentation. As a final product, we will take professional videos of 5 min presentations of your research work – to be used on the MPI website and possibly your own websites.
TOPICS	<p>This “practice lab” is designed to improve the individual performance of good communication and the practice of giving convincing scientific presentations. It focusses on testing your skills in order to develop your individual style and provides a minimum of necessary theoretical input. Active discussion and exercises to try our new behaviour and test different skills will be encouraged. These skills will support you to achieve an outstanding performance – in presentation and communication.</p> <p>Content:</p> <ul style="list-style-type: none"> <li>• Storyboard – breaking down complex content to a genius simple form</li> <li>• The Impact of body language and use of voice</li> <li>• Personal communication and leadership style through role play</li> <li>• Communication, elevator style – quick, precise and thrilling</li> <li>• Assessment Center – communication, leadership</li> </ul>
