Strategic networking for young scientists

TARGET GROUP: Postdocs

TARGET: This workshop aims at promoting awareness of the importance of networks for the own career in academia or industry. Participants get to know specific methods, instruments and tools for building up and maintaining networks.

TOPICS: The participants will learn tools and methods to build up their own network strategy and how to use it proactively to create their next career step. Intensive discussions and self reflection will support the process.

Content:
- Using networking tools for your own career steps
- Developing a network map
- Working out a network strategy
- Making an action plan
